

The graphic features a dark gray background with a series of concentric circles in varying shades of gray, creating a tunnel-like effect towards the center. In the top-left corner is a white, pill-shaped object with a highlight. In the top-right corner is a dark blue, three-dimensional cube. In the bottom-left corner is a light blue, faceted geometric shape. In the bottom-right corner is a light gray, ring-shaped object. The text "Creative LED SOLUTIONS" is centered, with "Creative" in a smaller, white, sans-serif font and "LED SOLUTIONS" in a larger, bold, white, sans-serif font. A thin black circle is positioned behind the word "Creative".

Global Fintech Fest 24 : HBCL Flexi LED

The image features the text "LED TREE" in a bold, white, sans-serif font, centered horizontally. The background is a light gray with a repeating geometric pattern of dark gray lines forming a grid of triangles. The text is slightly shadowed, giving it a three-dimensional appearance as if it's floating above the pattern.

LED TREE

INSPIRED BY NATURE – LED TREE

Circular LED Wall

LED Pillar

LED Tree

The LED Tree is a stunning and customizable lighting sculpture that combines modern LED technology with the timeless beauty of nature. This innovative design features a base constructed from a circular LED wall or cylindrical LED structure, while the top is adorned with a crown made from counter fascia and inner fascia LED walls. The result is a mesmerizing tree-like form that illuminates any space with vibrant, dynamic light.

[Reference Video](#)

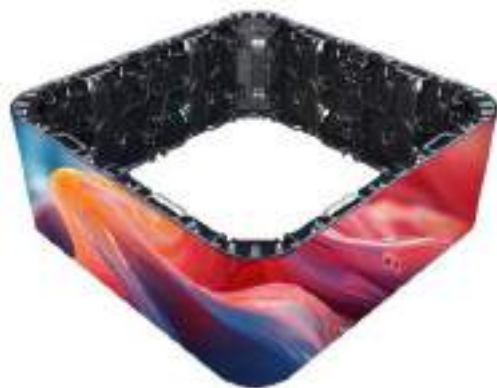

The background is a dark gray surface with several light gray, three-dimensional geometric shapes scattered around. These shapes include a dodecahedron in the top left, a cube in the top right, and a complex polyhedron in the bottom right. The lighting creates soft shadows, giving the shapes a sense of depth.

LED
BOOTH PHOTO

LED PHOTO BOOTH

Introducing the LED Photo Booth by Shivam Video, a captivating structure designed to elevate any event. Comprised of three LED walls—a floor LED wall and two side LED walls—this booth offers an immersive visual experience..

Left/Right LED Pixel Pitch Options :

2.9mm or 3.9mm

Floor LED Pixel Pitch Option :

3.9 mm or 4.8 mm, Weatherproof

FLOOR LED :

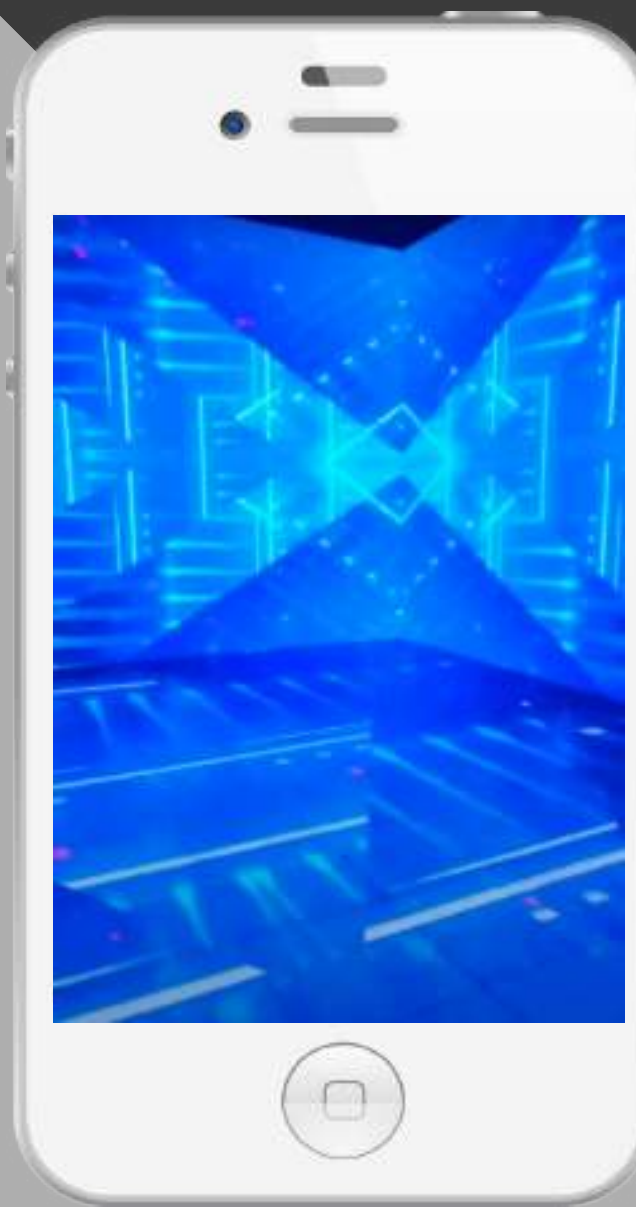

Weatherproof Panels: Built with weatherproof LED panels, ensuring durability and performance in various conditions.

High Resolution: Available in 4.8mm or 3.9mm pixel pitch, delivering clear, vibrant visuals underfoot.

SIDE LED :

Customizable Panels: The side LED walls can be customized with 2.9mm or 3.9mm pixel pitch LED panels, providing sharp, high-definition imagery.

Seamless Integration: The side walls are attached end-to-end with the floor LED wall without any gap, creating a seamless and immersive environment.

LED PHOTOBOOTH

Enhanced Safety : Shivam Video installs a customized iron structure beneath the floor LED wall, providing robustness and safety for all users.

Sturdy Design : The entire setup is engineered for stability, ensuring a secure and reliable installation.

IMMERSIVE ROOM

Our **Immersive LED Room** is a seamless fusion of innovation and creativity. Imagine being surrounded by high-resolution LED walls—from the floor beneath your feet to the walls around you, and even the ceiling above.

LED STANDEES

LED standees are a powerful visual tool that instantly elevate your presence at events and exhibitions. With their vibrant displays and dynamic content capability, they grab attention, engage audiences, and deliver your message with impact. Whether showcasing a promo video, brand story, or product demo, LED standees offer a sleek, professional look that enhances your booth or venue space—while being easy to transport and set up.

POSTER LED Standee

Our Poster LED is **Slim, Lightweight, Durable** with High Strength **Aluminum Profile**. Content is easily updated via USB or remotely

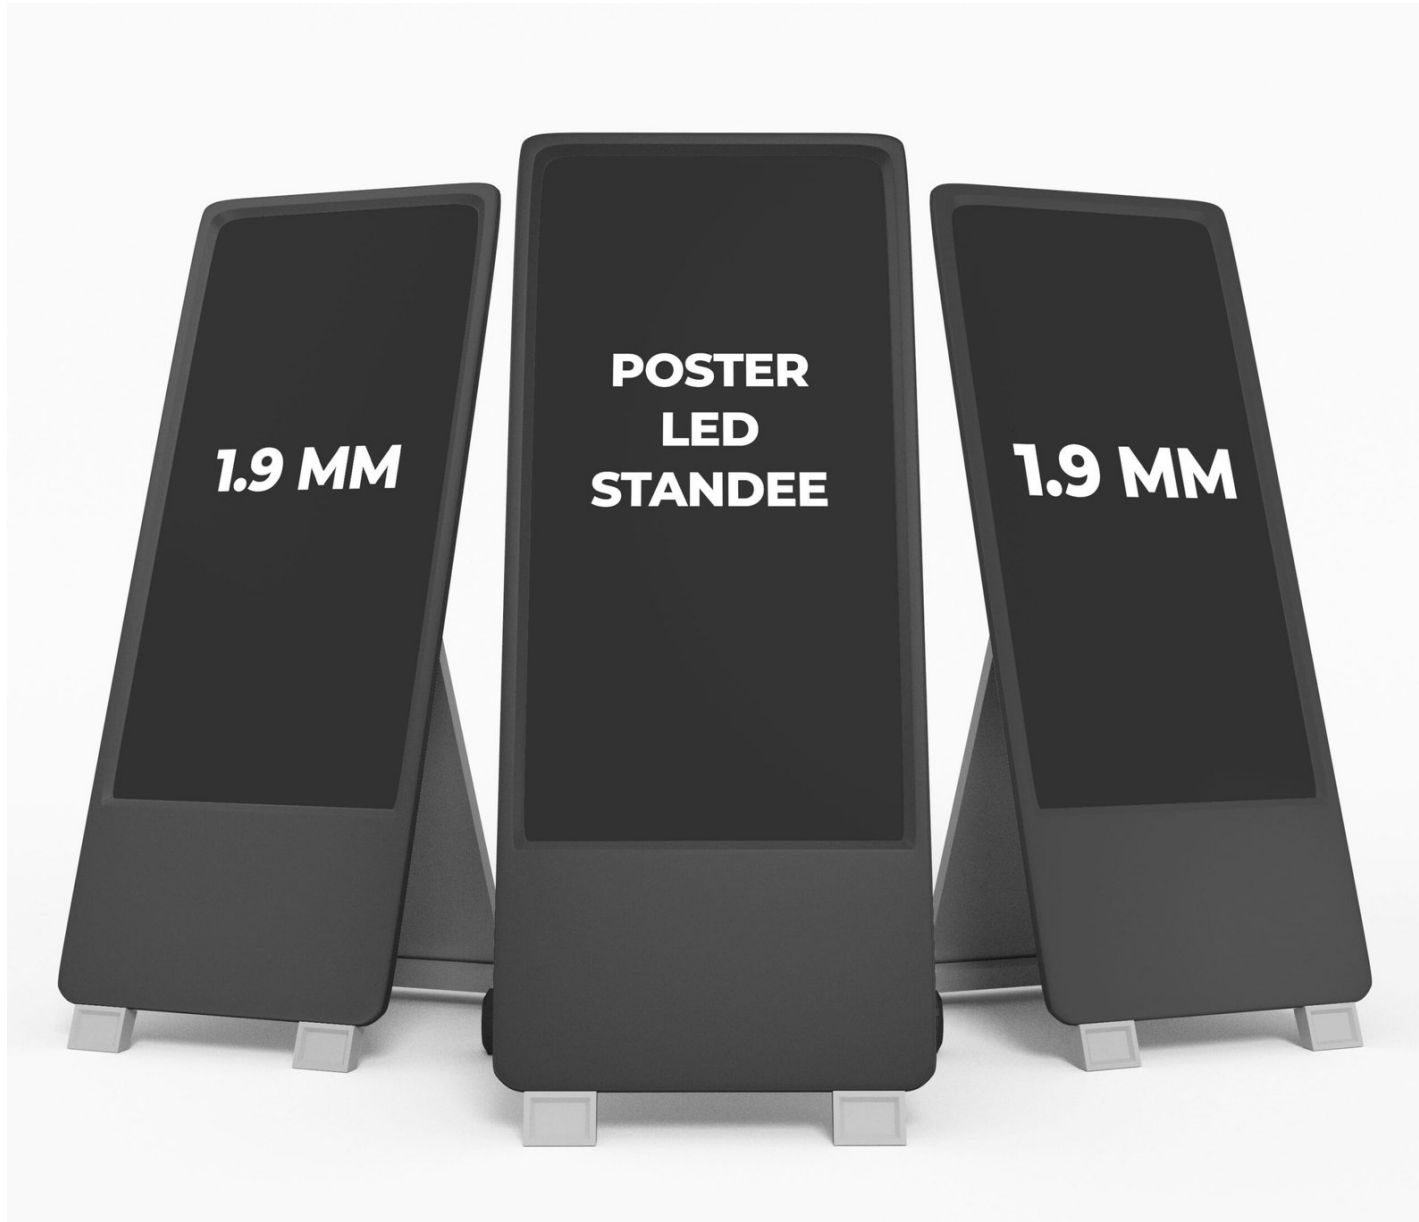

LED TV Standee

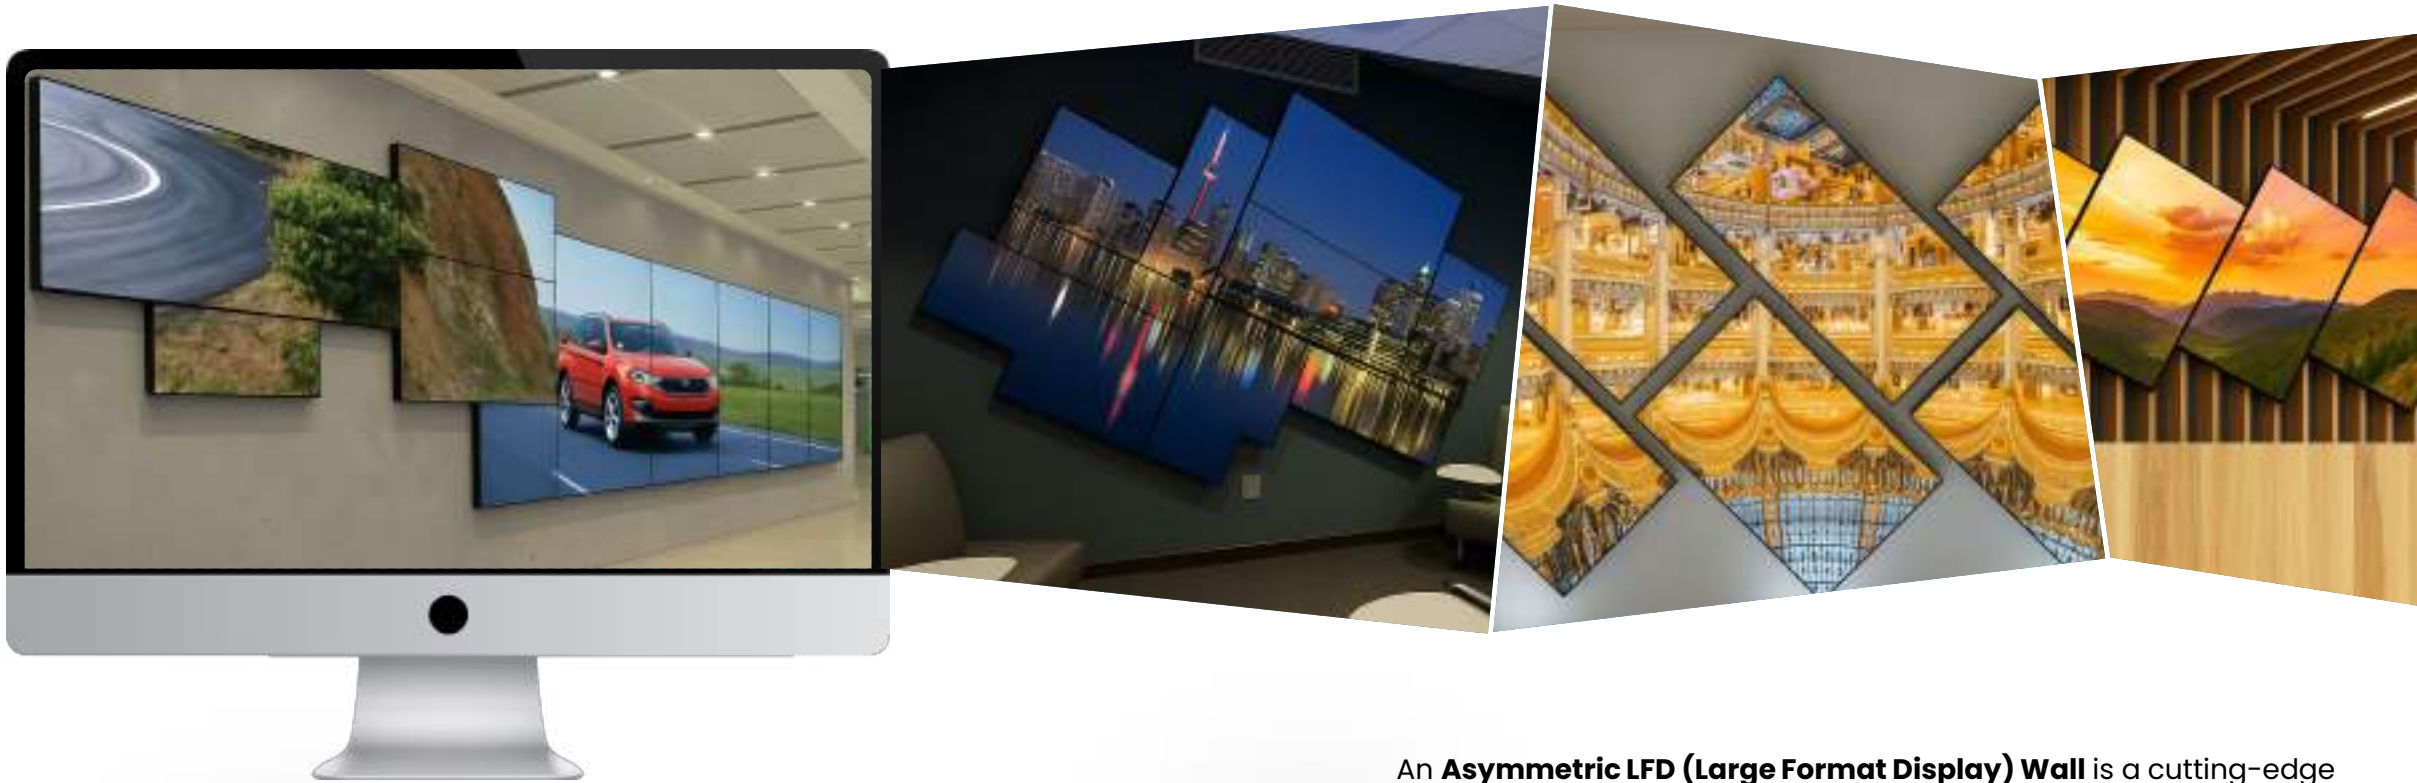

Sleek and versatile, the **LED TV** Standee is designed to elevate visual engagement in any setting. Suits spaces needing flexibility in display content (**videos, presentations, live feeds**).

The All New 1.9mm LED Standee

ASYMMETRIC LFD WALL – Bold Visual Statement

[VIDEO REFERENCE LINK](#)

An **Asymmetric LFD (Large Format Display) Wall** is a cutting-edge display configuration that defies traditional grid layouts by arranging screens in creative, non-uniform patterns. Rather than aligning each panel into a perfect rectangle or square, asymmetric video walls use displays of the same or varying sizes in staggered or angular formations to produce a visually dynamic and modern look.
